Healthy Sarasota County Worksites Overview

Healthy Sarasota County Worksites is a *no cost* worksite wellness designation program that assesses current employee wellness programs or assists in the development of one. The program is designed to help employers assess whether they have implemented evidence-based health promotion interventions or strategies in their worksites to prevent heart disease, stroke, and related conditions such as hypertension, diabetes and obesity. We are dedicated to recognizing businesses that have acknowledged rising health care costs and are taking progressive and active measures to address this at the organizational level.
